

Ron Peiffer is a Maryland photographer, whose interest in photography has been a lifetime pursuit from film to digital and covers a wide range of subjects. He has been a member of Arundel Camera Club, in Severna Park, since 2011 and is currently rated by the club at the Master's Level in both color and black and white prints, with a platinum certificate in digital images. Ratings are based on club competition performance. Ron has been recognized by Arundel Camera Club as Unlimited Photographer of the Year several times, most recently for the 2023-24 competition year.

Over the last decade, he became increasingly engaged in photography competitions—both judging and competing, to continue his own education in the field. He was trained and certified in judging by MPA and explores both the unusual and mundane subjects, but always looking for emotional impact in subjects and composition. Often, in judging, he looks for the unexpected and for photographs that break all the commonly held rules to achieve impact. He finds competitions and critiques highly instructive for both photographer and judge. Ron serves as a member at large on the Executive Board for the MPA and serves on several organization committees.
